

ZenFlow - Sample FAQ

How do I create a support ticket?

Log in, click 'Create Ticket', enter the issue details, select a priority, and submit.

How can I check my ticket status?

Go to 'My Tickets' to see whether your ticket is Open, In Progress, Resolved, or Closed.

How do I reset my password?

Click 'Forgot Password' on the login page and follow the email instructions.

What are ticket priorities?

Low, Medium, High, and Critical. Higher priority tickets are handled first.

Can I attach files?

Yes. Images, PDFs, and logs can be attached while creating a ticket.

How does the AI chatbot help?

It searches the knowledge base and answers common questions before creating a ticket.

When should I create a new ticket?

Create a new ticket if your issue is not already resolved by the chatbot or existing FAQs.

How do I close a ticket?

Open the resolved ticket and click 'Close Ticket' after confirming the issue is fixed.

Who can view all tickets?

Administrators and support agents can view and manage all tickets.

How do I contact support?

Use the chatbot, create a ticket, or email support@zenflow.com.
